

Program Content:

DWR, in partnership with ACWA, will be conducting five free public workshops throughout the State to discuss the status and the next phase of implementation of the California Statewide Groundwater Elevation Monitoring (CASGEM) Program.

The workshops will consist of presentations by DWR staff on the planned CASGEM activities for the remainder of the current fiscal year.

Attendees Will:

- Understand the groundwater basin prioritization process.
- Learn how prioritization was developed.
- Understand prioritization for each of the groundwater basins/subbasins
- Learn about next steps for DWR and CASGEM program through June 30, 2014.

Who Should Attend:

Current and prospective CASGEM monitoring entities, cooperating agencies, local water agencies, county groundwater representatives, and interested parties.
